

*Truly Always There*

*By Tyler P. Fick*

Why can't I be that spark in your eye?

Why can't I be that light?

Why can't I have this wish tonight?

If I were that spark,

We could be alone in the dark.

If I were that light

I would forever be in your sight

All other things would seem untrue

If I were that special part of you.

You would treat me with care,

Thinking I was a gift sent from up there.

When people thought of you

They would think of me in your eye

And in these visions, I would smile

And help you shine for a while.

Cause I'm that spark in your eyes

Cause I'm that light that you hope will never die.
